

An ACCOUNT of the Proceedings of the GOVERNORS of St. George's HOSPITAL near Hyde-Park-Corner, from its First Institution, October the Nineteenth 1733. to the Thirtieth of December 1747. Together with a LIST of the Governors and Contributors, and an ABSTRACT of some of their By-Laws.

By Order of the General Board, Friday, the Twelfth of February 1747.

THE Governors of St. George's Hospital think themselves obliged, in Justice to their Subscribers and Benefactors, to publish an Abstract of their Accounts to the Thirtieth Day of December last inclusive, together with a short State of their Proceedings, that the Publick may judge of the Application of their Bounty, and the extensive good Consequence of it.

The Institution.

THIS Undertaking was set on Foot soon after Michaelmas 1733. by some Gentlemen who were before concerned in a Charity of the like kind, in the lower Part of Westminster. They judged this House convenient for their Purpose, on account of its Air, Situation, and Nearness to Town; procured a Lease of it, and opened a Subscription for carrying on the Charity here. The Subscription increased so fast, that on the Nineteenth of October they were formed into a regular Society, and actually began to receive Patients on the First of January following.

Number of Patients.

How visibly the Blessing of God has supported this Design, appears from the subsequent Accounts of Persons relieved, and of the Money which enabled them to defray the considerable Expence of enlarging the House, small as it was when they took it, to its present Dimensions; whereby about Two Hundred and Seventy Patients are accommodated within their Walls.

THIS noble Attempt to found Hospitals on the sole Support of Voluntary Contributions, tho' common in other Countries, is of late Date here. Many doubtless would embrace the Means of promoting so charitable an Institution, were they rightly informed of the Nature of it, and how it is here carried into Execution: Which the Governors therefore take this publick Opportunity to mention.

The Good proposed.

IT is to supply those who ought to be the chief Care of the Publick, the honest and laborious Poor, with Advice, Medicine, and every Necessary of Cure, when so miserably sunk in Health that they can be no longer serviceable to the Publick, or find Comfort in themselves; and this without any Expence to themselves or Families, and with very little to the charitable Contributor. A little Attention will discover how inadequately it must be answer'd by any other Method. Direct Benefactions of Money to the Poor, Sick and Lame (unless so large, as to take them quite out of the Rank of the Poor) will fall short of the common Charge of Medicine and Attendance. If the many generous Professors of Physick and Surgery should add their gratuitous Assistance, yet can it not be supposed their warmest Benevolence could ever extend itself to any great Number of Objects at their several Homes. Or could this be done, even in and about these two Great Cities, how few of the industrious Poor have a Home fit for the Bed of Sickness, however furnished with the few Necessaries of a Life of Health and Vigour. In yet more tolerable Situations, if the Family of the sick Person is to bear the Burden of Supporting him, when restrained at the same Time from those Labours which should furnish that very Support, by their constant Attendance on him, the Dissipation of their little Stock, and possibly a Load of accruing Debts, will very much diminish the Comfort of a Recovery.

THE Admission into an Hospital puts a plain End to all these Difficulties: And if we further take into account the Advantage of immediate Consultation in all difficult Cases; the Certainty of not only good, but proper Diet; of Medicines, both good in their kind, and regularly administred; clean and constant Attendance, and that by Persons versed in it, and of approved Diligence and Tenderness; it will surely appear that the Poorest have, in this Method of Charity, all the Helps towards Recovery, which even those of the better Sort could reasonably wish for.

THERE is yet a farther Benefit received, by the Poor thus brought into a regular Society: It regards no less than their eternal Welfare. It is with the utmost Pleasure we assure the Contributors that their Charity is found of infinite Use in this important Branch. Immediate Application is made to the Patients, according to their respective Ways of Life, both in Matters of Instruction and Devotion; and a Perseverance in this Care, enforced by the awakening Terrors of Death, or first Openings of Gratitude for Mercy received, so frequent in this Place, turns their Thoughts upon themselves, fixes their Attention, and produces extraordinary Effects upon the most Ignorant and Abandoned. Many of them, utterly void of the very Rudiments of Christian Education, have been brought to a Sense of rational and practical Faith and Duty, during their Abode here: And Others, who had rioted out continual Health by continual Vices, have been softened into such a State of Penitence and Reformation, as either promises a comfortable Hope in their latter End, or by their exemplary Beha-

viour when discharged, an Increase of true Religion and Piety amongst the Common People.

SUCH are the glorious Effects it has pleased God's infinite Goodness to produce, by Subscriptions merely during the Will of the Contributor; and many of them not exceeding one Guinea a Year. The Number of Proper Objects is amply sufficient to employ the Bounty of the Rich: And this Undertaking has liberally shared of their superior Fortunes, on which the Support of this Hospital, under God, chiefly depends. Yet it is thought proper to mention this moderate Sum, lest Strangers of less Ability should be ignorant on how easy Terms they may at once perform almost every Species of Christian Charity.

To these Purposes are admitted all such Poor, Sick and Lame (being recommended according to the Rules following) as the Hospital will contain. They are supplied with Advice, Medicine, Diet, Washing, Lodging, and some of the most Miserable with Cloaths also. The Physicians visit their Patients on Mondays and Fridays, and on all intermediate Days, whenever Occasion requires; and the Surgeons every Day: And on every Friday Morning there is a general Consultation of all the Physicians and Surgeons. No Security for their Burial is required; nor any Money, Gift or Reward, taken of them or their Friends, on any Account whatsoever. Those who die, if their Friends are unable, are buried at the Charge of the Society: And the Money collected in the Poor's Box at the Door, is kept as a separate Fund for furnishing those with some little Sum of Money, whose Distance from their Habitations, or other particular Necessities, require it.

The Apothecaries, who are Governors, are appointed to attend by Rotation as Visitors, to see that the Apothecary of the House takes due Care of the Medicines and Patients. Two Visitors are chosen every Week out of the Subscribers, to attend daily, and take Care, by Examination of the Provisions and Patients, that the Orders of the Society are punctually observed, that the Patients are treated in every Thing with Order and Tenderness, and to make a Report in Writing of their Observations.

PRAYERS are read daily to the Patients. A Sermon is preached every Sunday, the Communion is administred every Month, and the Chaplain attends at other Times to catechize, and to perform other religious Offices, as often as their Cases require; and when the Patients are discharged, Religious Tracts are given to each of them for their farther Edification.

A BOARD of Governors meet every Wednesday Morning, to do the current Business of the Hospital, to receive and examine the Reports of the Visitors, to discharge and admit Patients, to receive the Complaints and Proposals of all Persons, and to prepare such Matters as are proper for the Consideration of General Boards. A General Board of all the Governors meet regularly five Times a Year: And any five Governors, on extraordinary Affairs, may require the Weekly Board to summon a Special General Board, on fifteen Days Notice; the Business of which, and of all General Boards, is then to be specified, and the Minutes thereof hung up in the Board-Room, till the Meeting of such General Boards.

EVERY Governor may vote at each of these Boards, unless any Claim of his be under Consideration; and then he is not to be present. In case any Difference arises at these Boards, the Question is fairly stated, and determined by a Ballot, if required. The Governors are in Number upwards of Three Hundred. No Person receiving Salary, Fee, or Reward from the Hospital, is capable of being a Governor: But every other Gentleman subscribing Five Pounds a Year, or upwards, or giving one Benefaction of Fifty Pounds (altho' he be not an Annual Subscriber) is thereupon put in Nomination to be a Governor; and at the first General Court, which is held one Month afterwards, is accordingly ballotted for by the Governors.

WE hope it will appear that the great Ends of this Undertaking have been satisfactorily answered hitherto, and that they always will be so, from the Nature of our Constitution; the Number and Condition of Governors furnishing an Argument of great Probability that the Contributions cannot be misapplied.

NONE are trusted with the Care of the Patients, either in Physick or Surgery, or any other Matter of Importance, but those who are first elected by the General Board, and remain always answerable to the same for their Conduct. All By-Laws are made and confirmed by General Boards. The Accounts are passed in the same Manner; and, together with the State of the Proceedings, submitted once a Year to the Judgment of the Publick. These Accounts are kept, and the Acts of every Board and Committee faithfully register'd in Books by the Treasurers and Clerk; and a Register is kept of all the Patients. The Physicians, Surgeons, Visiting Apothecaries, and Treasurers, are

(be- Proper Ob- ing recommended according to the Rules following) as the Hospital will contain.

all Governors, and add to their Contributions the more important Charity of their gratuitous Good Offices in these Stations.

Book open-
ed for Mr
Aspinwall.

But it is proper to observe, that at the Request of Mr Aspinwall, an Order was made at the Yearly General Court, held the 7th of February 1745-6. as follows: Ordered Unanimously, "That Leave be given to open a Book for Gifts or a Voluntary Subscription for the Benefit of Mr Aspinwall, who from the Beginning of this Charity, for now Twelve Years, with constant Attendance, and very extraordinary Services, has been a very useful Member of this Society, and is now reduced in his Circumstances by several Misfortunes; and that the said Mr Aspinwall be continued a Governor."

Subscription
to the
Chaplain.

THE present Chaplain is also a Governor, and has performed the very valuable Charity of attending the Patients, in the Manner before mentioned, near Five Years, without any Reward from the Charity: In Consideration whereof, and to enable him to continue such his Good Offices, without diminishing the General Fund of the Hospital, an Order was made at a General Board held the fourth Day of August 1738. in the following Words: Resolved, "That a Subscription be opened for raising an Annual Allowance for Mr Fraser, as Chaplain of this Hospital; to which any Person is to be at liberty to subscribe any Sum not exceeding one Guinea, nor less than Five Shillings per Annum, as they shall think fit." And considering the great Importance of his Service, and the constant Attendance that Mr Fraser gives, it is hoped that he will always meet with suitable Encouragement.

Names of
the Physi-
cians, Sur-
geons, &c.

THE Physicians are, Dr David Ross, Dr Benjamin Hoadly, Physician to his Majesty's Household, Dr Ambrose Dawson, and Dr John Thomas Batt. William Cheselden, Esq; Surgeon to Chelsea College, and John Pawlet, Esq; Surgeon-General to the Army, have, at the Desire of the Society, promised their Assistance in all extraordinary Cases, to consult with the Surgeons of the House, upon the same Foot as in private Practice; and to attend the Practice, when they please, at the usual Hours of Dressings. The Surgeons are, David Middleton, Esq; Caesar Hawkins, Esq; Serjeant-Surgeon to His Majesty; William Bromfield, Esq; Surgeon to his Royal Highness the Prince of Wales, and Demonstrator of Anatomy at Surgeons-Hall; and Mr William Hewitt. The Visiting Apothecaries are, Thomas Grabam, Esq; Apothecary to His Majesty; John Allen, Esq; Apothecary to His Majesty's Household; Daniel Grabam, Esq; Apothecary to Chelsea College; Mr Andrew Mitchel, Mr James Fraser, Mr Theodore Edgar, Mr Richard Rowdon Baynham, and Mr George Payne.

THE Contributors are desired to send their Subscriptions to the Treasurers at the Weekly Board, held every Wednesday Morning in the Hospital. And in order to supply the current Expence of this Charity, the Subscribers are requested to continue to pay their Yearly Subscriptions in Advance.

The Treasurers are, Colonel Joseph Hudson, and Mr Richard Aspinwall.

ALL Persons disposed to encourage this Charity, are desired to send their Subscriptions or Benefactions, with their Names and Places of Abode (if they think proper) in the same Manner. And as every

Governor has a Right to act at all Boards, and to inquire into all the Affairs of the Society, they are hereby desired to make frequent Use of this Power, and assured that their Presence to this Purpose is considered as a very valuable Part of their Charity.

TO prevent Uncertainty and Confusion in the Estimate of our Revenue and Accompts, it was ordered, by a General Board, that Circular Letters should be carried or sent by an Officer of the Society, to give Notice to those whose Subscriptions are in Arrear; which it is hoped no Subscriber can take amiss, in as much as the Consent of every one of them to be thus reminded, is included in the Act of their Representatives the General Board, who made this Order.

SUCH as chuse to be Benefactors by their last Will, have the following Form of a Legacy recommended to them.

Item. I give and bequeath unto A. B. and C. D. the Sum of upon Trust, and to the Intent that they, or one of them, do pay the same to the Treasurer or Treasurers for the Time being, of a Society, who now call themselves the Governors of St. George's Hospital near Hyde-Park-Corner; which said Sum of I desire may be applied towards carrying on the charitable Designs of the said Society.

ALL CONTRIBUTORS are desired to take Notice,

1. THAT no Person is to be admitted a Patient (except in Cases of Accidents) without a Note from a Governor or Contributor, specifying the Name and Place of Abode of such Patient, and that he or she is a proper Object of this Charity.

2. THAT all Recommendations are to be delivered every Wednesday Morning, by Nine of the Clock.

3. THAT in case any Out-Patients shall neglect coming for two Weeks successively, on the Day and Hour they are ordered to attend, such Out-Patients shall be discharged for Irregularity; except they have had Leave from their Physician.

4. THAT no Person discharged for Irregularity is to be ever again admitted into the Hospital upon any Recommendation whatsoever.

5. THAT no Patient is to be suffered to go out of the Hospital without Leave in Writing; and that, to avoid Offence, no Leave is to be given to any Patient to go into St. James's Park, or the Green Park, called Constitution-Hill, upon any Pretence whatsoever.

6. THAT no Governor, Officer or Servant, must at any Time presume, upon Pain of Expulsion, to take of any Tradesman, Patient, or other Person, any Fee, Reward, or Gratification of any kind, directly or indirectly, for any Service done, or to be done, on account of this Hospital.

7. AND, That when there is not Room for all the Patients recommended at one Time to be received into the Hospital, those are taken in, whose Admission the Board are of Opinion will most effectually answer the End of the Charity: And the rest, if Proper Objects, are admitted Out-Patients, till there is Room for them in the Hospital.

N. B. THAT most Consumptive and Asthmatic Cases are more capable of Relief, as Out-Patients, than as In-Patients.
